EXPERIENCE

INUVO | Little Rock, AR - *Full Stack Software Developer*

OCTOBER 2021 - PRESENT

- Integrated and maintained numerous RESTful 3rd-party APIs to optimize digital ad metric reporting across major advertising platforms
- Developed and enhanced internal CMS applications, integrating ChatGPT and WYSIWYG editors, streamlining digital content and ad campaign creation for editorial team
- Led UX/UI design initiatives for multiple client-facing web applications, ensuring intuitive and accessible user experiences
- Developed ad campaign management platform adopted by over 300 client agencies globally, significantly expanding the company's market reach
- Designed a dynamic website builder engine enabling codeless deployment of unique website layouts for advertising arbitrage
- Collaborated closely with ETL and infrastructure teams to automate reporting, integrated new website domains, and extended backend relational databases

W&W AFSCO Steel | Little Rock, AR - *Bridge Estimator*

OCTOBER 2020 - OCTOBER 2021

- Facilitated migration and consolidation of several estimating departments to new software platform
- Built front-end data entry application using C# to streamline processes and reduce user error
- Created an XML file processor to serve data to backend of new software without access to an API

TAPIF | Académie de Lille, France - *Secondary School Teaching Assistant*

OCTOBER 2019 - MAY 2020

- Taught English, arithmetic, and computer science in both the English and French languages
- Established English Excellence club which grew to a consistent weekly group of 25 students
- Connected two French schools with an American partner school for greater cultural exchange

W&W AFSCO Steel | Little Rock, AR - *Data Analyst / Production Control Specialist*

FEBRUARY 2019 - SEPTEMBER 2019

- Automated data entry methods by scripting Excel spreadsheets using Visual Basic
- Confirmed and budgeted payroll of over 100 hourly and salaried employees
- Trained and directed a team of 5 interns on the programming of CNC machinery and the use of various software applications

deTASO | Conway, AR - *Full Stack Software Developer Intern*

MAY 2017 - JANUARY 2018

- Led and developed the creation of behavioral therapist module using .NET framework
- Demonstrated fully functional features to clients and trained therapists on tech usage
- Managed fast-paced workflow in a start-up environment

PROJECTS

React Weather Tracker

- Utilized RESTful API to pull read-only weather data from web to populate React weather card components
- Designed GUI and created responsive SVG image assets within Figma

React Trello Clone

- Designed web app with an emphasis on demonstrating CRUD functionality to limit project scope
- Created modular list and card components to organize tasks into a Kanban style workflow using React and Redux
- Implemented a draggable interface to allow user to make changes quickly between lists and cards

EDUCATION

University of Central Arkansas | Conway, Arkansas - *Bachelor of Science (B.S.), Computer Science*
AUGUST 2014 - AUGUST 2019

Centria University of Applied Sciences | Kokkola, Finland
JANUARY 2018 - MAY 2018

PROFESSIONAL AFFILIATIONS

Code for Little Rock - *Volunteer Member*

- Teamed with local volunteers of all skill levels to develop a website using React
- Tutored undergraduate students on basic web design principles and design patterns
- Collaborated with professional UI/UX web designer during development process
